

07/01/13

FTDX3000 Software Update and Version Identification

The latest versions are listed below with the release dates.

- MAIN Software Version **01-14** (07/01/13)
- TFT Software Version **01-07** (07/01/13)

*If you already have MAIN: Ver. **01-14** and TFT: Ver. **01-07** software versions, it is not necessary to update the FTDX3000 again.

There are four different Software installations. Each one must be followed carefully. Installing the wrong type software may cause difficulties. Check your radio before installing software to be sure which updates are needed.

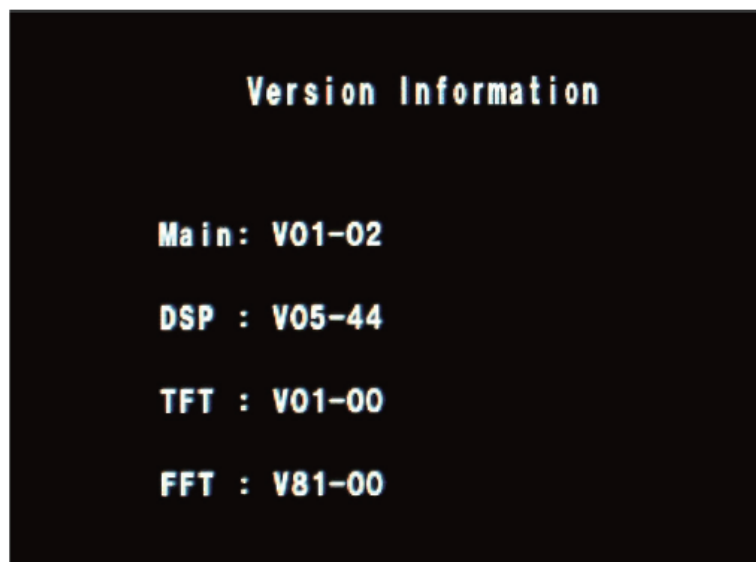

If multiple software installations are required the **MAIN** software should be installed first, as it is the only one that requires a press and hold in the [FAST] and [LOCK] keys while turning the radio back on. This resets the radio and locks in the new software.

Before installing new firmware, please verify your current version firmware with the following procedure:

How to Confirm the Firmware Version

Press and hold the [POWER] key to turn on the transceiver, while pressing and holding the [SCOPE] key, [GEN] key, [50] key, and [ENT] key on the transceiver's main panel.

The versions of each firmware will be displayed on the TFT screen.

(This image & version is for illustration only)

Download the FTDX3000 data and [**FTDX3000_Update_July1.zip**] from the following website:
<http://www.yaesu.com/indexVS.cfm?cmd=DisplayProducts&ProdCatID=102&encProdID=721B3F7D596827E0B37BD528EE1A56F1&DivisionID=65&isArchived=0>

Please read the FTDX3000 Firmware Upgrade Manual before proceeding!

Ver. 01-14 MAIN CPU (FSW08 Ver1.01) and Ver. 01-07 TFT (07/01/13)

- A full screen function of the spectrum scope on the TFT display is added.
- "Full screen display" is stored to memory by pressing the "SELECT" key for more than one second.
- In split frequency operation the TX frequency may be tuned while the [TXW] key is held.

NOTE: The full screen feature requires installation of new **Ver. 01-14_MAIN CPU** and **Ver. 01-07 TFT** software.

For operation of the above features, please refer to the FTDX 3000 Additional useful functions sheet.

We hope this new firmware will increase your enjoyment of your FTDX3000. Thank you for choosing Yaesu radios. If you have any problems or questions, please contact Yaesu, Amateur Tech Support amateurtech@yaesu.com.
