FTᴅx3000 Software Update and Version Identification

The latest versions are listed below with the release dates.
- MAIN Software Version **01-15** (08/31/13)
- TFT Software Version **01-07** (07/01/13)

The MAIN V01-15 and TFT V01-07 must be installed together. They cannot be combined with any previous version MAIN or TFT software.

*If you already have MAIN: Ver. **01-15** and TFT: Ver. **01-07** software versions, it is not necessary to update the FTDX3000 again.
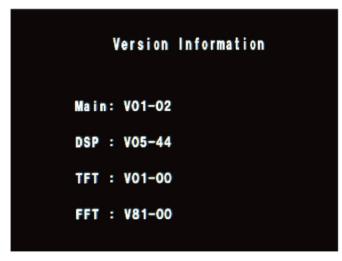

There are four different Software installations. Each one must be followed carefully. Installing the wrong type software may cause difficulties. Check your radio before installing software to be sure which updates are needed.
If multiple software installations are required the **MAIN** software should be installed first, as it is the only one that requires a press and hold in the [FAST] and [LOCK] keys while turning the radio back on. This resets the radio and locks in the new software.

Before installing new firmware, please verify your current version firmware with the following procedure:

How to Confirm the Firmware Version

Press and hold the [POWER] key to turn on the transceiver, while pressing and holding the [SCOPE] key, [GEN] key, [50] key, and [ENT] key on the transceiver's main panel.
The versions of each firmware will be displayed on the TFT screen.

```
            Version Information

    Main: V01-02

    DSP : V05-44

    TFT : V01-00

    FFT : V81-00
```

(This image & version is for illustration only)

Down load the FTDX3000 data and [**FTDX3000_Update_August 31.zip**] from the following website:

http://www.yaesu.com/indexVS.cfm?cmd=DisplayProducts&ProdCatID=102&encProdID=721B3F7D596827E0B37BD528EE1A56F1&DivisionID=65&isArchived=0

Please read the FTDX3000 Firmware Upgrade Manual before proceeding!

Ver. 01-15 MAIN CPU (08/31/13)

- FTDX3000 now has the added ability to select OFF for the Parametric Equalizer from the following 6 Menu items:

  #159/168   100～700   ⇒   OFF/100～700
  #162/171   700～1500   ⇒   OFF/700～1500
  #165/174   1500～3200 ⇒   OFF/1500～3200

- Now has the added capability to use PCC-3000 Personal Computer Controller Window Version **0101**.

We hope this new firmware will increase your enjoyment of your FTDX3000. Thank you for choosing Yaesu radios. If you have any problems or questions, please contact Yaesu, Amateur Tech Support amateurtech@yaesu.com.
